PROMIX - FixAway Balm
A '100% natural' effective wound ointment using only the purest essential oils
Formulated by Dr Karen Bohme BVSc Hons

Contains:

- **Lavender Oil:** A well-known remedy for the healing of wounds, burns, abscesses & eczema. It has large amounts of antiseptic, insecticide and calming qualities.
- **Bezoïn:** Used for the healing of sores and wounds, as well as protects the affected area from irritation and infection. Counteracts inflammation and promotes circulation, therefore reducing swelling, redness and itchiness.
- **Patchouli Oil:** Has antiseptic, astringent & anti-inflammation properties therefore assisting with soothing inflammation, inhibiting fungal growth and fights infection whilst promoting hair growth.
- **Tea Tree Oil:** Effective against bacteria, fungal viruses and a proven antibiotic and insect repellent. Researcher Arthur Penfold published accepted articles in the 1920's & 30's, proving Tea Tree's effective antimicrobial activity.
- **Aloe Vera:** Used for centuries for its beneficial skin rejuvenation properties. Aloe Vera has powerful activity for healing of wounds, sunburn, reduces pain, inflammation and itching and is a great moisturiser therefore encouraging skin growth.

Summary:

FixAway is a natural all round, water resistant wound ointment, that should sooth and assist in the healing of most wounds as well as promote rapid skin and hair growth. Should the wound infection persist without any improvement for longer than 5 days, please consult a Vet.
